Nintendo ENTERTAINMENT SYSTEM

Wiley Coyote™, and Yosemite

within the castle. Along the way
we have to collect all the carrots
while avoiding those rascals.
Ok, Doc, let's get going!

Only controller 1 is used for this game.

START Button:

Used to start the game and may also be used to pause the game during play.

A Button:

HOW TO PLAY:

Starting the Game:

After Bugs Bunny appears from behind the brick wall, press START to begin the game.

Choosing the Level:

You can choose to start the game from the first level or enter a password to start from a higher level. These passwords are given to you as you complete each of the sixty levels. Use the control pad to move the triangle cursor to the desired choice and press START.

If you choose to enter a password, you will be given the opportunity to enter a four character code. Use up and down directions on the control pad to change the flashing character to another letter. Use right and left on the control pad to change character positions. Press START when you are done entering the password. If you enter the password correctly, you may begin play from the higher level. Otherwise, you will begin from the first level.

The Objective:

You begin the game with 5 lives. Your goal is to complete all sixty levels by picking up all the carrots on each level. If you are successful in completing a level, you receive an additional life. If you are captured by one of the rascals, you lose a life and have to start the level over again. However, you can safely pass the rascals through doorways and pipes.

If you lose all your lives, you will be given the chance to continue the game from the current level. To do this, use the control pad to highlight your choice and press the START button. Otherwise, you can start the game from the first level.

Controlling Bugs Bunny:

Bugs Bunny is an agile character. He can even survive jumps from high places. You can use right and left on the control pad to move him across the screen.

Magic Carrot Juice:

By drinking the magic carrot juice, Bugs Bunny will become invisible for a short time.

Boxing Glove:

If you pick up the boxing glove, you can use it to throw a punch at one of the rascals. Press the A Button and the glove will be thrown in the direction that Bugs Bunny is facing.

Safe, Wooden Crate, Bucket, and 10 Ton Weight:

You can push one of these objects into the rascals, or push it off a floor so that it falls down on one of them.

The No Carrot Sign:

On some levels you may encounter a No Carrot sign. Be very careful! If you touch this sign, you will be immediately forced to play a special level. If you succeed in clearing the level, you will gain 3 lives. Otherwise you will be forced back 3 levels.

The Rascals:
